

## SDG Goal 17

## Partnerships for the goals

### SDG Target 17.15

Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development

### SDG Indicator 17.15.1

Extent of use of country-owned results frameworks and planning tools by providers of development cooperation

### Time series

Extent of use of country-owned results frameworks by providers of development co-operation

## 1. General information on the time series

- Date of national metadata: 17 December 2021
- National data: <http://sdg-indikatoren.de/en/17-15-1/>
- Definition: This time series measures the extent to which, and the ways in which, all concerned development partners use country-led results frameworks (CRFs) to plan development cooperation efforts and assess their performance.  
The time series assesses the degree to which providers of development cooperation (i.e. development partners) design their interventions by relying on objectives and resulting indicators that are drawn from country government-led results frameworks reflecting the country's development priorities and goals.
- Disaggregation: Not available.

## 2. Comparison with global metadata

- Date of global metadata: February 2021
- Global metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-17-15-01.pdf>
- The time series is compliant with the global metadata.

## 3. Data description

- For each development intervention of significant size (US\$ 100,000 and above) approved during the year of reference, the following dimensions are assessed:
  - Q1. Whether objectives are drawn from government-led results frameworks, plans and strategies 0/1
  - Q2. Share of results (outcome) indicators that are drawn from government-led results frameworks, plans and strategies %
  - Q3. Share of results (outcome) indicators that will rely on sources of data provided by existing country-led monitoring systems or national statistical services to track project progress %
