

SDG Goal 17

Partnerships for the goals

SDG Target 17.18

By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts

SDG Indicator 17.18.2

Number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics

Time series

Countries with national statistical legislation that complies with the Fundamental Principles of Official Statistics

1. General information on the time series

- Date of national metadata: 01 September 2021
- National data: <http://sdg-indikatoren.de/en/17-18-2/>
- Definition: The SDG indicator refers to the number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics. This time series refers to the number of countries that have a statistical legislation which respects the principles of UNFOP.
- Disaggregation: Not available.

2. Comparison with global metadata

- Date of global metadata: February 2018
- Global metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-17-18-02.pdf>
- The time series is compliant with the global metadata, but it only refers to Germany and not to all UN-member countries.

3. Data description

- The SDG indicator is not a statistical one. Therefore the time series states if Germany has a mechanism in place to enhance policy coherence of sustainable development.

4. Accessibility of source data

5. Metadata on source data

- The European Statistics Code of Practice:
<https://ec.europa.eu/eurostat/web/quality/european-statistics-code-of-practice>

6. Timeliness and frequency

- Timeliness: Not applicable.
- Frequency: Annual

7. Calculation method

- Unit of measurement: Not applicable
- Calculation method:

Not applicable.
