

SDG Goal 16	Peace, justice and strong institutions
SDG Target 16.7	Ensure responsive, inclusive, participatory and representative decision-making at all levels
SDG Indicator 16.7.2	Proportion of population who believe decision-making is inclusive and responsive, by sex, age, disability and population group
Time series	Population who considers their experiences with public agencies free of discrimination during the previous two years

1. General information on the time series

- Date of national metadata: 27 January 2022
- National data: <http://sdg-indicators.de/16-7-2/>
- Definition: The time series measures the share of population who consider their experiences with public agencies in the previous two years free of discrimination.
The time series measures the share of respondents of the Life Situation Survey that agree with the following statement regarding their interaction with a government agency during the last two years “In the context of my request I have personally felt disadvantaged due to for example sex, age, disability, ethnic origin, religion, sexual orientation.” The given rating scale ranges from fully agree, rather agree, partly agree, rather disagree to fully disagree.
- Disaggregation: sex

2. Comparability with the UN metadata

- Date of UN metadata: March 2023
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-16-07-02.pdf>
- The time series is not compliant with the UN metadata, but provides additional information.

3. Data description

- The data is based on a special evaluation from the Life Situation Survey, which is commissioned by the Federal Government and carried out by the Federal Statistical Office. In 2021 around 6,000 citizens and more than 2,700 business were interviewed. Data is only available from 2015 onwards.
