

SDG Goal 17

Partnerships for the goals

SDG Target 17.9

Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the Sustainable Development Goals, including through North-South, South-South and triangular cooperation

SDG Indicator 17.9.1

Dollar value of financial and technical assistance (including through North-South, South-South and triangular cooperation) committed to developing countries

Time series

ODA and OOF (commitments) for capacity building and national planning (without South-South cooperations)

1. General information on the time series

- Date of national metadata: 7 December 2022
- National data: <http://sdg-indicators.de/17-9-1/>
- Definition: The time series measures German official development assistance (ODA) and other official flows (OOF) for capacity building and national planning. It is measured in commitments of the resources to the partner country (versus disbursements of resources). ODA is defined as aid provided by official agencies that promotes and specifically targets the economic development and welfare of developing countries. For ODA flows, data on the sector of destination are recorded using 5-digit codes so called purpose codes. Codes ending on the sequential number 10 refer to policy, planning and programs and the codes 16020 and 16030 to employment and housing policy and their administrative management. The following codes are hence included in the time series: 11110, 12110, 13010, 14010, 15110, 15210, 16020, 16030, 21010, 22010, 23110, 24010, 31110, 31210, 31310, 32110, 32210, 32310, 33110, 33210, 41010.
OOF are defined as transactions by the official sector, which do not meet the conditions for eligibility as ODA, either because they are not primarily aimed at development, or because they are not sufficiently concessional. Data on South-South cooperation is - in line with the UN metadata - not included.
- Disaggregation: Not available.

2. Comparability with the UN metadata

- Date of UN metadata: July 2017
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-17-09-01.pdf>
- The time series is compliant with the UN metadata. However, it does not exclude triangular cooperation. It is important to note that the UN metadata do not include neither South-South nor triangular cooperation as outlined in the indicator. The UN metadata furthermore do not specify the necessary purpose codes.

3. Data description

- ODA is the resource flows to countries and territories on the OECD Development Assistance Committee (DAC) List of ODA Recipients and to multilateral development institutions that are:
 - Provided by official agencies, including state and local governments, or by their executive agencies; and
 - Concessional (i.e. grants and soft loans) and administered with the promotion of the economic development and welfare of developing countries as the main objective.

The DAC list of countries eligible to receive ODA is updated every three years and is based on per capita income.

4. Access to data source

- OECD – Development Finance Data:
<https://www.oecd.org/dac/financing-sustainable-development/development-finance-data/>
- OECD – ODA and OOF for capacity building and national planning:
<https://stats.oecd.org/qwids/>

5. Metadata on source data

- General information on ODA as well as recent and future changes in methodology:
<http://www.oecd.org/dac/financing-sustainable-development/development-finance-standards/What-is-ODA.pdf>
- List of the OECD DAC purpose codes and channel codes:
<https://www.oecd.org/dac/financing-sustainable-development/development-finance-standards/dacandcrscodelists.htm>
- List of ODA recipient countries:
<http://oe.cd/dac-list>

6. Timeliness and frequency

- Timeliness: t + 11 months
- Frequency: Annual

7. Calculation method

- Unit of measurement: Million EUR
- Calculation:

$$\text{Commitments for capacity building and national planning (without South-South cooperations)} = \frac{\text{ODA + OOF commitments to the relevant sectors [MnUSD]}}{\text{Deflators for resource flows [base year = 100]}}$$

SDG Goal 17

Partnerships for the goals

SDG Target 17.9

Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the Sustainable Development Goals, including through North-South, South-South and triangular cooperation

SDG Indicator 17.9.1

Dollar value of financial and technical assistance (including through North-South, South-South and triangular cooperation) committed to developing countries

Time series

ODA and OOF (gross disbursements) for capacity building and national planning (without South-South cooperations)

1. General information on the time series

- Date of national metadata: 7 December 2022
- National data: <http://sdg-indicators.de/17-9-1/>
- Definition: The time series measures German official development assistance (ODA) and other official flows (OOF) for capacity building and national planning. It is measured in gross disbursements of the resources to the partner country (versus commitments of resources). ODA is defined as aid provided by official agencies that promotes and specifically targets the economic development and welfare of developing countries. For ODA flows, data on the sector of destination are recorded using 5-digit codes so called purpose codes. Codes ending on the sequential number 10 refer to policy, planning and programs and the codes 16020 and 16030 to employment and housing policy and their administrative management. The following codes are hence included in the time series: 11110, 12110, 13010, 14010, 15110, 15210, 16020, 16030, 21010, 22010, 23110, 24010, 31110, 31210, 31310, 32110, 32210, 32310, 33110, 33210, 41010.
OOF are defined as transactions by the official sector, which do not meet the conditions for eligibility as ODA, either because they are not primarily aimed at development, or because they are not sufficiently concessional. Data on South-South cooperation is - in line with the UN metadata - not included.
- Disaggregation: Not available.

2. Comparability with the UN metadata

- Date of UN metadata: July 2017
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-17-09-01.pdf>
- The time series is compliant with the UN metadata. However, it does not exclude triangular cooperation. It is important to note that the UN metadata do not include neither South-South nor triangular cooperation as outlined in the indicator. The UN metadata furthermore do not specify the necessary purpose codes.

3. Data description

- ODA is the resource flows to countries and territories on the OECD Development Assistance Committee (DAC) List of ODA Recipients and to multilateral development institutions that are:
 - Provided by official agencies, including state and local governments, or by their executive agencies; and
 - Concessional (i.e. grants and soft loans) and administered with the promotion of the economic development and welfare of developing countries as the main objective.

The DAC list of countries eligible to receive ODA is updated every three years and is based on per capita income.
