

## **SDG Goal 3                      Good health and well-being**

**SDG Target 3.8**                      **Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all**

**SDG Indicator 3.8.2**                      **Proportion of population with large household expenditures on health as a share of total household expenditure or income**

**Time series**                      **Proportion of population with large household expenditures on health as a share of total household expenditure or income**

### **1. General information on the time series**

- Date of national metadata: 04 November 2021
- National data: <http://sdg-indikatoren.de/en/3-8-2/>
- Definition: The data shows the proportion of population with large household expenditures on health as a share of total household expenditure or income.
- Disaggregation: household expenditures on health

### **2. Comparison with global metadata**

- Date of global metadata: March 2019
- Global metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-03-08-02.pdf>
- The time series is not compliant with the global metadata, but provides additional information.

### **3. Data description**

- The data is taken from the “Socio-Economic Panel (SOEP) 2010” from the German Institute for Economic Research (DIW Berlin). The data "household expenditures on health" was collected uniquely in 2010.

### **4. Accessibility of source data**

- German Socio Economic Panel (SOEP) 2010:
