

SDG Goal 5 Gender equality

SDG Target 5.4 Recognize and value unpaid care and domestic work through the

provision of public services, infrastructure and social protection policies and the promotion of shared responsibility within the

household and the family as nationally appropriate

SDG Indicator 5.4.1 Proportion of time spent on unpaid domestic and care work, by sex, age and location

Time series Time spent on unpaid domestic and care work

#### 1. General information on the time series

• Date of national metadata: 26 January 2022

• National data: http://sdg-indicators.de/5-4-1/

- Definition: The time series measures the proportion of a person's total available time which is spent on unpaid work in his/her household. It includes time for care taking for children and other household members who need care. Persons considered are of 15 years and older.
- Disaggregation: age group; sex

## 2. Comparability with the global metadata

• Date of global metadata: March 2023

• Global metadata: <a href="https://unstats.un.org/sdgs/metadata/files/Metadata-05-04-01.pdf">https://unstats.un.org/sdgs/metadata/files/Metadata-05-04-01.pdf</a>

• The time series is compliant with the global metadata.

### 3. Data description

• The data is based on a special evaluation from the time use survey, a voluntary survey conducted by the Federal Statistical Office in cooperation with the statistical offices of the Länder. The survey is a cluster sample with respondents of 10 years of age and older who are keeping a diary 2 days a week recording their activities every 10 minutes of the respective day.

#### 4. Access to data source

Not available.

#### 5. Metadata on source data

Quality Report – Time Use Survey (only available in German):

## 7. Calculation method

- Unit of measurement: Percentage
- Calculation:

$$\frac{ Proportion \, of \, time \, spent \, on }{ unpaid \, domestic \, and \, care \, work } = \frac{ Unpaid \, domestic \, and \, care \, work \, [h/d] }{ 24 [h/d] } \cdot 100 \, [\%]$$
