SDG Goal 16	Peace, justice and strong institutions
SDG Target 16.2	End abuse, exploitation, trafficking and all forms of violence against and torture of children
SDG Indicator 16.2.2	Number of victims of human trafficking per 100,000 population, by sex, age and form of exploitation
Time series	Victims of human trafficking

1. General information on the time series

• Date of national metadata: 23 August 2021

• National data: http://sdg-indikatoren.de/en/16-2-2/

• Definition: The time series shows the total number of victims of human trafficking per 100,000 inhabitants and the total number. Trafficking in human beings is defined as offences against sexual self-determination (trafficking for sexual exploitation) or a person's freedom of disposal over the use and exploitation of their labour (trafficking for labour exploitation).

• Disaggregation: age group; sex

2. Comparison with global metadata

• Date of global metadata: July 2016

• Global metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-16-02-02.pdf

• The time series is compliant with global metadata. The number of victims of human trafficking is shown as additional information in a separate time series.

3. Data description

• The data are taken from the "Federal Situation Survey Human Trafficking", conducted by the Germany's Federal Criminal Police Office on human trafficking.
The data are based on the criminal investigation offices of the Länder.
Data on population are the results of the latest population census (currently: 2011 Census) rolled forward in a breakdown by sex, age, marital status and citizenship, using both statistics of population change (migration, births, deaths, entering into marriages or registered same-sex partnerships) and information on changes in citizenship and the dissolution of marriages or registered same-sex partnerships. Before 2011, updated census data from 1987 (Federal Republic of Germany) and the population register of October 1990 (German Democratic Republic) were used. For the years before 2011 the results for population were calculated backwards using the census 2011 and migration, birth and death statistics.

4. Accessibility of source data

• Victims (only available in German):
https://www.bka.de/DE/AktuelleInformationen/StatistikenLagebilder/Lagebilder/Menschenhandel/menschenhandel_node.html

• Intercensal population updates as annual average – GENESIS online 12411-0040:
https://www-genesis.destatis.de/genesis//online?operation=table&code=12411-0040&bypass=true&language=en

5. Metadata on source data

• Victims (only available in German):
https://www.bka.de/DE/AktuelleInformationen/StatistikenLagebilder/Lagebilder/Menschenhandel/menschenhandel_node.htm

6. Timeliness and frequency

- Timeliness: t + 4 months
- Frequency: Annual

7. Calculation method

- Unit of measurement: Per 100,000 inhabitants; number
- Calculation method:

$$\textbf{Victims of human trafficking} = \frac{\text{Victims of human trafficking}_i\,[\text{number}]}{\text{Population}\,[\text{number}]} \cdot 100{,}000$$

$i \in \{\text{sexual exploitation}; \text{labour exploitation}\}$
