SDG Goal 1	No poverty
SDG Target 1.3	**Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable**
SDG Indicator 1.3.1	**Proportion of population covered by social protection floors/ systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable**
Time series	**Unemployed persons with unemployment benefits**

1. General information on the time series

- Date of national metadata: 21 October 2021

- National data: http://sdg-indikatoren.de/en/1-3-1/

- Definition: Unemployed persons with unemployment benefits are legally as unemployed registered persons that receive benefits according to Book Two and Three of the Social Code. The federal definition of unemployment, written in § 16 Book Three of the Social Code, and § 53a Book Two of the Social Code, is different to the international definition of the International Labour Organization (ILO). For illustration of the difference, see the link.

- Disaggregation: Not available.

2. Comparison with global metadata

- Date of global metadata: January 2021

- Global metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-01-03-01a.pdf

- The time series is compliant with the global metadata. It is one of the sub-indicators mentioned in the global metadata of ILO.

3. Data description

- Calculation by using of administrative data (census) of the Federal Employment Agency.

4. Accessibility of source data

- Unemployed and unemployment rates - monthly and annual figures since 1950 (only available in German) - Table 2.6.1:
https://statistik.arbeitsagentur.de/SiteGlobals/Forms/Suche/Einzelheftsuche_Formular.html?nn=1184484&topic_f=alo-zeitreihe-dwo
- Basic income support for job searchers (SGB II) (only available in German):
https://statistik.arbeitsagentur.de/SiteGlobals/Forms/Suche/Einzelheftsuche_Formular.html?nn=1524052&topic_f=zeitreihekreise-zr-gruarb
- Benefits SGB III (only available in German):
https://statistik.arbeitsagentur.de/SiteGlobals/Forms/Suche/Einzelheftsuche_Formular.html?nn=1524082&topic_f=arbeitslosengeld-zr-alg
- Data on health insurance (results of the microcensus) (only available in German) - Fachserie 13, series 1.1:
https://www.destatis.de/DE/Service/Bibliothek/_publikationen-fachserienliste-13.html?nn=206136
- Labour force participation of the population (only available in German):
https://www.destatis.de/DE/Themen/Arbeit/Arbeitsmarkt/Erwerbslosigkeit/_inhalt.html

5. Metadata on source data

- Quality report statistics on basic income support for job-seekers according to Book Two (only available in German):

https://statistik.arbeitsagentur.de/DE/Navigation/Grundlagen/Methodik-Qualitaet/Qualitaetsberichte/Grundsicherung-Arbeitsuchende-SGBII/Qualitaetsberichte-Grusi-Arbeitsuchende-SGBII-Nav.html

6. Timeliness and frequency

- Timeliness: Book Two: about t + 4 months; Book Three: about t + 3 months

- Frequency: Annual

7. Calculation method

- Unit of measurement: Percentage

- Calculation method:

$$\text{Unemployed persons with unemployment benefits} = \frac{\text{Unemployed persons with unemployment benefits [number]}}{\text{Registered unemployed persons [number]}} \cdot 100\,[\%]$$

SDG Goal 1	No poverty
SDG Target 1.3	**Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable**
SDG Indicator 1.3.1	**Proportion of population covered by social protection floors/ systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable**
Time series	**Population covered by health insurance**

1. General information on the time series

- Date of national metadata: 21 October 2021

- National data: http://sdg-indikatoren.de/en/1-3-1/

- Definition: The time series "population covered by health insurance" contains the number of all inhabitants regardless of their age that are either covered by private (e.g. officials, self-employed persons) or public health insurance. Also included are insured family members.

- Disaggregation: Not available.

2. Comparison with global metadata

- Date of global metadata: July 2021

- Global metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-01-03-01b.pdf

- The time series is not compliant with the global metadata, but provides additional information.

3. Data description

- The data on "persons with health insurance" is collected in the Microcensus of the Federal Statistical Office and the statistical offices of the Federal States (Länder). The Microcensus is an inquiry directed to households, designed to obtain information on the labour market and related issues through a series of personal interviews with a sample of 1 %. The Microcensus is designed as a multi-topic survey, integrating many different subject fields. The European Labour Force Survey (LFS) is integrated into the Microcensus and is harmonised in all EU member states.
Data on population are the results of the latest population census (currently: 2011 Census) rolled forward in a breakdown by sex, age, marital status and citizenship, using both statistics of population change (migration, births, deaths, entering into marriages or registered same-sex partnerships) and information on changes in citizenship and the dissolution of marriages or registered same-sex partnerships. Before 2011, updated census data from 1987 (Federal Republic of Germany) and the population register of October 1990 (German Democratic Republic) were used. For the years before 2011 the results for population were calculated backwards using the census 2011 and migration, birth and death statistics.

4. Accessibility of source data

5. Metadata on source data

- Quality Report - Microcensus 2020 (only available in German):
https://www.destatis.de/DE/Methoden/Qualitaet/Qualitaetsberichte/Bevoelkerung/mikrozensus-2020.pdf
- Quality Report - Microcensus 2020 (only available in German):
https://www.destatis.de/DE/Methoden/Qualitaet/Qualitaetsberichte/Bevoelkerung/mikrozensus-2020.pdf

6. Timeliness and frequency

- Timeliness: t + 7 months (mid of the year)
- Frequency: Every 4 years

7. Calculation method

- Unit of measurement: Percentage
- Calculation method:

$$\text{Population covered by health insurance} = \frac{\text{Population[number] - Persons not covered by health insurance[number]}}{\text{Population[number]}} \cdot 100\,[\%]$$
