3. Data description

- The indicator is based on responses from member states of the Food and Agriculture Organization of the United Nations (FAO) regarding compliance with and implementation of the Code of Conduct for Responsible Fisheries (CCRF) and related instruments. The individual variables in the questionnaire are weighted, taking into account the significance of each instrument.

Only a small proportion of the sections of the CCRF questionnaire are addressed directly to the Member States of the European Union (EU). This concerns questions 19, 20, 21, 41 and 52. These are answered by Federal Ministry of Agriculture, Food and Regional Identity (BMLEH). The remaining information in the other sections is provided by the EU on behalf of its Member States.
