SDG Goal 3	Good health and well-being
SDG Target 3.7	By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes
SDG Indicator 3.7.2	Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group
Time series	Births to adolescents

1. General information on the time series
   - Date of national metadata: May 23, 2023
   - National data: https://sdg-indicators.de/3-7-2
   - Definition: The time series shows the number of births to adolescents per 1,000 women in the same age group (10-14 years and 15-19 years).
   - Disaggregation: Age of mother
2. Comparability with the UN metadata
   - Date of UN metadata: March 2025
   - UN metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-03-07-02.pdf
   - The time series is compliant with the UN metadata.
3. Data description
   - Up to and including the 2024 reporting year:
     The data on the number of births to adolescents is based on a special evaluation of the Federal Statistical Office's birth statistics.

     From the 2025 reporting year onwards:
     The data on the number of births to adolescents are taken from the Federal Statistical Office's birth statistics and are based on administrative data. The birth rate is calculated using the exact-age method (Altersjahrmethode). This involves calculating the number of births per 1,000 women in the same age group, taking into account the women's age at the time of birth.

     The retroactively calculated average population figures from the Federal Statistical Office are used to calculate the population data. For 2010, it was determined on the basis of the 2011 census and migration, birth and death statistics; for the years 2012 to 2021, the calculation was made on the basis of the 2022 census.
4. Access to data source
   - Statistical Report: Births – Table 12612-01 (from 2025 onwards) (only available in German):
     https://www.destatis.de/DE/Themen/Gesellschaft-

Umwelt/Bevoelkerung/Geburten/Publikationen/Downloads-Geburten/statistischer-bericht-geburten-5126104257005.xlsx

- Average population: GENESIS online 12411-0041: https://www-genesis.destatis.de/genesis//online?operation=table&code=12411-0041&bypass=true&levelindex=1&levelid=1639396599054#abreadcrumb
- Population data based on Census 2022 (only available in German): https://www.destatis.de/DE/Themen/Gesellschaft-Umwelt/Bevoelkerung/Bevoelkerungsstand/_inhalt.html#sprg233540

5. Metadata on source data
   - Quality Report: Birth Statistics (only available in German): https://www.destatis.de/DE/Methoden/Qualitaet/Qualitaetsberichte/Bevoelkerung/geburten.pdf
   - Quality Report: Microcensus (only available in German): https://www.destatis.de/DE/Methoden/Qualitaet/Qualitaetsberichte/Bevoelkerung/einfuehrung.html

6. Timeliness and frequency
   - Timeliness: t + 8.5 months
   - Frequency: Annual

7. Calculation method
   - Unit of measurement: Per 1,000 women of same age
   - Calculation:

$$\text{Adolescent birth rate}_i = \frac{\text{Births to adolescents}_i \text{ [number]}}{\text{Women in the same age group}_i \text{ [number]}} \cdot 1\,000$$

With i = {10 to under 15 years; 15 to under 20 years}
