

SDG Goal 9

Industry, innovation and infrastructure

SDG Target 9.3

Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets

SDG Indicator 9.3.2

Proportion of small-scale industries with a loan or line of credit

Time series

Micro-businesses with an equity ratio below 10 percent

1. General information on the time series

- Date of national metadata: April 22, 2026
- National data: <https://sdg-indicators.de/9-3-2>
- Definition: The time series shows the proportion of small and medium-sized enterprises with fewer than 10 employees that have an equity ratio of less than 10 percent.
- Disaggregation: Not available.

2. Comparability with the UN metadata

- Date of UN metadata: December 2023
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-09-03-02.pdf>
- The time series is not compliant with UN metadata, but provides additional information.
Companies with a low equity ratio generally also finance themselves through debt, but do not necessarily have loans or credit.

3. Data description

- The data is derived from the SME Panel of the Kreditanstalt für Wiederaufbau (KfW), which has conducted annual surveys since 2003 of small and medium-sized enterprises in Germany with annual revenues of up to EUR 500 million. Up to 15,000 representative SMEs participate in the survey each year (13,079 in 2024).
The population of the KfW SME Panel includes all small and medium-sized enterprises in Germany (private companies in all economic sectors whose annual turnover does not exceed EUR 500 million). Excluded are the public sector, banks, and nonprofit organizations.
