

SDG Goal 9 Industry, innovation and infrastructure

SDG Target 9.a Facilitate sustainable and resilient infrastructure development in developing countries through enhanced financial, technological and technical support to African countries, least developed countries, landlocked developing countries and small island developing States

SDG Indicator 9.a.1 Total official international support (official development assistance plus other official flows) to infrastructure

Time series Commitments and gross disbursements of Official Development Assistance and Other Official Flows to infrastructure

1. General information on the time series

- Date of national metadata: June 15, 2026
- National data: <https://sdg-indicators.de/9-a-1>
- Definition: The time series shows Germany's commitments and gross disbursements of Official Development Assistance (ODA) and Other Official Flows (OOF) to infrastructure.

The classification is based on the Creditor Reporting System (CRS) purpose codes. The CRS is the OECD's (Organisation for Economic Co-operation and Development) international standard classification system for development finance. It is used to classify development cooperation activities by sector and purpose.

The following CRS codes are included:

CRS-Codes 200: Economic Infrastructure and Services

- Disaggregation: Type of financial flow, Type of Official Development Assistance

2. Comparability with the UN metadata

- Date of UN metadata: September 2017
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-09-0A-01.pdf>

Note: The indicator refers to developing countries, of which Germany is not a member.

- The time series is not compliant with the UN metadata, but provides additional information. The reasons are as follows:
 - o It shows Germany's ODA and OOF, while the UN metadata provides information on the development assistance received from the perspective of developing countries.
 - o The UN metadata does not specify the necessary purposes.

3. Data description

- According to the OECD, Official Development Assistance is government support that is specifically "designed to promote the economic and social development of developing countries."

ODA is an internationally recognised measure agreed within the OECD Development Assistance Committee (DAC). It comprises financial flows provided by official agencies

to developing countries, their nationals, or international organisations for the benefit of developing countries. Private contributions and charitable donations are not recorded as ODA.

Other Official Flows are public sector transactions that do not meet the criteria for ODA. OOF includes grants to developing countries for representational or predominantly commercial purposes; bilateral public transactions intended to promote development but with a grant element of less than 25 %; and bilateral public transactions which, regardless of their grant element, are primarily intended to promote exports. By definition, this category includes:

- o export credits granted directly to a recipient of development assistance by a government agency or institution (official direct export credits);
- o the net acquisition by governments and central banks of securities issued by multilateral development banks on market terms;
- o subsidies (grants) to the private sector to facilitate its lending to developing countries; and
- o funds to support private investment.

The DAC List of ODA Recipients is generally revised every three years by the DAC on the basis of the World Bank income classifications.

4. Access to data source

- OECD – ODA and OOF to infrastructure [Selections: CRS Creditor Reporting System (flows); Sector: 200; Measure: Official Development Assistance, Other Official Flows (non Export Credit); Channel: All channels; Modality: All modalities; Flow type: Disbursements, Commitments]:

5. Metadata on source data

- General information about ODA:
<https://www.oecd.org/en/topics/official-development-assistance-oda.html>
- List of the OECD DAC purpose codes and channel codes:
<https://development-finance-codelists.oecd.org/CodesList.aspx>
- DAC list of ODA Recipients:
<https://www.oecd.org/en/topics/sub-issues/oda-eligibility-and-conditions/dac-list-of-oda-recipients.html#oda-recipients-list>

6. Timeliness and frequency

- Timeliness: t + 11 months
- Frequency: Annual

7. Calculation method

- Unit of measurement: Million EUR; Million USD, constant prices
- Calculation: Not applicable.
