

## SDG Goal 17

## Partnerships for the goals

### SDG Target 17.2

Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance (ODA/GNI) to developing countries and 0.15 to 0.20 per cent of ODA/GNI to least developed countries; ODA providers are encouraged to consider setting a target to provide at least 0.20 per cent of ODA/GNI to least developed countries

### SDG Indicator 17.2.1

Net official development assistance, total and to least developed countries, as a proportion of the Organization for Economic Cooperation and Development (OECD) Development Assistance Committee donors' gross national income (GNI)

### Time series

Net disbursements of Official Development Assistance as a proportion of gross national income

#### 1. General information on the time series

- Date of UN metadata: August 2020
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-17-02-01.pdf>
- The time series is compliant with the UN metadata.

#### 3. Data description

- According to the OECD, ODA is government support that is specifically “designed to promote the economic and social development of developing countries.”

ODA is an internationally recognised measure agreed within the OECD Development Assistance Committee (DAC). It comprises financial flows provided by official agencies to developing countries, their nationals, or international organisations for the benefit of developing countries. Private contributions and charitable donations are not recorded as ODA.

The DAC List of ODA Recipients is generally revised every three years by the DAC on the basis of the World Bank income classifications.

Data for the gross national income is based till 2013 on the European System of Accounts (ESA) 1995; data starting from 2014 on ESA 2010.
