SDG Goal 3	Good health and well-being
SDG Target 3.3	By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases
SDG Indicator 3.3.2	Tuberculosis incidence per 100,000 population
Time series	Tuberculosis incidence

1. General information on the time series
   - Date of national metadata: May 7, 2026
   - National data: https://sdg-indicators.de/3-3-2
   - Definition: The time series shows the number of reported tuberculosis cases per 100,000 inhabitants.
   - Disaggregation: Not available.
2. Comparability with the UN metadata
   - Date of UN metadata: March 2026
   - UN metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-03-03-02.pdf
   - The time series is compliant with the UN metadata.
3. Data description
   - The Infection Protection Act (Infektionsschutzgesetz, IfSG), which came into force in January 2001, regulates the statutory notification of certain communicable diseases in Germany. Notifications are generally submitted by medical doctors and laboratories and are mandatory. Nevertheless, underreporting may occur, as not all diagnosed notifiable diseases are fully recorded within the reporting system. The tuberculosis cases reported by the Robert Koch Institute (RKI) are based on case reports in accordance with Section 6 (1) (1) and Section 7 (1) (34) of the IfSG.

     The population data are taken from the population updates of the Federal Statistical Office. For the calculation of population data, the retroactively calculated average population is used. For 2010, this is based on the 2011 census as well as migration, birth, and death statistics; for the years 2012 to 2021, the calculation is based on the 2022 census.
4. Access to data source
   - Online database SurvStat@RKI 2.0: https://survstat.rki.de/
   - Infectious Disease Epidemiology – Annual Report: https://www.rki.de/EN/News/Publications/Epidemiology-Annual-Report/infectious-disease-epidemiology-annual-report-node.html
   - Average population – GENESIS online 12411-0041: https://www-genesis.destatis.de/genesis//online?operation=table&code=12411-0041&bypass=true&levelindex=1&levelid=1639396599054#abreadcrumb

- Population data based on Census 2022 (only available in German): https://www.destatis.de/DE/Themen/Gesellschaft-Umwelt/Bevoelkerung/Bevoelkerungsstand/_inhalt.html#sprg233540

5. Metadata on source data
   - Online database SurvStat@RKI 2.0 - Content: https://survstat.rki.de/Content/Instruction/Content.aspx
   - Quality Report – Microcensus (only available in German): https://www.destatis.de/DE/Methoden/Qualitaet/Qualitaetsberichte/Bevoelkerung/einfuehrung.html
6. Timeliness and frequency
   - Timeliness: t + 3 weeks after data received
   - Frequency: Annual
7. Calculation method
   - Unit of measurement: Per 100,000 inhabitants
   - Calculation: Not applicable.
